PURE PROANTHOCYANIDIC TANNIN : GRAPE SKIN TANNIN FOR HUMAN CONSUMPTION

**FLAVTAN PELLITAN® PARTICIPATES TO FINING AND
TO STABILIZATION OF COLOR.**

**Increases the freshness of wines in reducing
the bitterness.**

100% NATURAL, WITHOUT PRESERVATIVES. WITHOUT GMO.

Application

This tannin is issued from the Grape Skin. This very reactive tannin FLAVTAN PELLITAN® allows to fix anthocyanins and avoids their precipitation.

Description and Uses

FLAVTAN PELLITAN® is a product developed by Partoeno R&D and tested by the University of Bordeaux, France and key wine consultants on different wines, regions and vintages.

This product harmonizes natural aroma and structure of wines.

**FLAVTAN PELLITAN® AVOIDS THE
BROWN NUANCE OF WHITE WINES
AND PREVENTS REDUCTION ODOURS.**

When to use FLAVTAN PELLITAN®?

Wines that are considered to be outside the acceptable range eg : all wines presenting difficulties of clarifi-

cation and stabilization. The treated wines can be tasted the same day of the treatment, however it is recommended to wait at least 48 hours.

Furthermore, revalue wines of average range at a lower cost.

FLAVTAN PELLITAN® increases the acidity and the freshness of wines.

It is recommended to use FLAVTAN PELLITAN® at a dosage between **2 to 20 g/hl** of red and rosé wine after dilution in wine. The dosage, and therefore the treatment cost, can be optimised by doing direct trials in bottles at different concentrations.
